

Group Meeting

What has been done since last meeting (3/31):

Collin: Has completed the Level Select Menu, and has begun testing the Car Class feature

Darren: Has been working on implementing Box2D for collision and testing the Level Select menu

Hassain: Has implemented a settings menu, and is working on adding functionality to it

Noah: Spent time researching the implementation of GUI elements to game screen

What will be done before next meeting (4/7):

Collin: Will have tested the Car Class completely

Darren: Will have the Car Class completed, and will have finished testing the Level Select Menu

Hassain: Will have completed the Main Menu modifications and will have tested the Menu Overlay

Noah: Will have a basic demo prepared for the racing interface
